

CITY OF ATLANTA DEPARTMENT OF WATER

Water Meter Automation

PROJECT DESCRIPTION & SCOPE

In July 2006, the City of Atlanta, Georgia selected K&V Automation, a joint venture between VSI Meter Services, Inc. (now Grid One Solutions, Inc.) and KHAFRA Engineering Consultants, to act as prime contractor for the automation of 150,000 water meters. Neptune was the technology utilized to support this automation effort.

PROJECT GOALS

The project's goals were to provide higher levels of service and increase customer satisfaction.

SERVICES PROVIDED BY GRID ONE

- ▶ Project management and oversight
- ▶ Water meter change-outs
- ▶ Neptune meter technology was implemented

PROJECT RESULTS

Grid One, through its joint venture company K&V Automation, established a collaborative work process with the City of Atlanta that ensured the successful completion of this project in July 2009.
